NATIONAL PARLIAMENTARY SESSION – NUCLEAR AND RADIOLOGICAL SECURITY

BANJUL, THE GAMBIA

JULY 31, 2023

PLAN OF ACTION

- ❖ Consider, as appropriate, raising greater awareness surrounding the International Convention for the Suppression of Acts of Nuclear Terrorism (ICSANT), the Convention on the Physical Protection of Nuclear Material (CPPNM) and its Amendment, among all Members of the National Assembly.

- ❖ Consider, as appropriate, further discussion of these important international treaties in relevant Committees of the National Assembly.

- ❖ Consider seeking additional information on the benefits of joining ICSANT, CPPNM, and its Amendment from relevant international organizations, including the UNODC, the IAEA, and PGA, as well as regional stakeholders, particularly concerning the advantages of becoming a State Party.

- ❖ Consider drawing the matter, in an appropriate way, to the attention of the Executive Branch of Government so that they may wish, in turn, to consider the possibility of joining this important international treaty in the near future.
