Gambia

General Debate

Speaker: H.E. Ms. Teneng Mba Jaiteh, Head of Mission

Budget: States Parties to the ICC should increase the Court’s Budget to address the increasing workload. Restorative justice is equally important, especially to represent victims. In this regard member states should contribute to the Trust Fund for Victims.

Cooperation: The cooperation between the ICC and its African member states should be strengthened by engaging the African States in discussions, and developing public perception and understanding of the Court’s role to bolster greater cooperation.

Gambia commends the OTP on the Strategic Plan and the annual report on preliminary examination activities as it promotes transparency and greater understanding of the work of the Office.
